DESIGN

GS8BM gland seal, is a single lip U-ring rod seal designed to provide a dry sealing solution in light and medium-duty applications. It is manufactured from a high-performance polyurethane/NBR, for easy installation and excellent low temperature performance.

The seal can be considered for use in medium-heavy duty applications when used with a suitable full depth back-up ring.

FEATURES

- Single acting or piston seal
- Symmetrical lips permits use in both rod and piston applications
- Excellent resistance to abrasion
- Easy installation

MATERIAL

Seal design comes in a variety of materials and sizes. For more information, please refer to MSDS datasheet.

APPLICATIONS

The seal can be considered for use in heavy-duty applications when used with a suitable full depth back-up ring.
